ADVENTURE

Road to the Shore
& Road to the Beaches

Your Road to the Beaches adventure can begin in one of two places. One is through Terra Nova National Park, Canada's most easterly National Park and the province's first Dark Sky preservation. And be sure to visit Charlottetown, home to the famous traditional song, Saltwater Joys. The other entry to this beautiful part of the island is through Glovertown, home to a large marina and yacht club, where a waterfront drive awaits you. Along the Eastport Peninsula you will find sandy beaches and coastal hiking trails that lead to views and places whose stories are just as incredible as its rugged beauty. Salvage is one of our oldest settlements, and the nearby island in Bonavista Bay to the community of St. Brendan's is only accessible by ferry from Burnside. Endless adventures await in this rugged area. Take your time and enjoy the history, the arts, and the outdoors during your stay.

Road to the Beaches

Your Road to the Shore adventure can start in Gander, the hub of the region. With an extensive aviation history, they are home to the only airport in Central Newfoundland. Gander and its airport are featured prominently in the award-winning musical Come From Away! Outport life is just a short drive away via Route 320 or 330. This scenic looped drive leads past spectacular shores and back through time itself. You'll weave between the history of logging, resettled communities, and the legacy of the Barbour Family, all nestled between picture-perfect fishing communities. New-Wes-Valley hosts artists in heritage buildings that date back to 1890. Rugged shores and the languid beaches play host to many adventures such as shark and cod fishing, kayaking, hiking, sandy beaches, geology and glamping.
